Kumta, Karnataka - 581332

OBJECTIVE

Full Stack Developer skilled in React.js, Node.js, Express.js, and MongoDB with hands-on experience building RESTful APIs and deploying applications on Microsoft Azure. Strong foundation in data structures, OOP, and system design principles. Experienced in Git-based workflows, debugging, and scalable web application development.

KEY SKILLS :

- **Programming Languages:** Java (Object-Oriented Programming), JavaScript (ES6+)
- **Frontend Development:** React.js, Tailwind CSS, Bootstrap, HTML5, CSS3, Responsive Web Design.
- **Backend Development:** Node.js, Express.js, RESTful API Development, JWT Authentication & Authorization.
- **Database Management:** MongoDB, MySQL, Mongoose, Database Design, CRUD Operations.
- **Cloud & Deployment:** Microsoft Azure (App Services, Storage, Basic Deployment), Environment Configuration.
- **Full Stack Development:** MERN Stack, API Integration, State Management, Client–Server Architecture.
- **Tools & Technologies:** Git, GitHub, Postman, VS Code, Chrome DevTools.

EDUCATION

Dr. A.V Baliga College, Kumta (Karnataka University-Dharwad) **2023-2026**
Bachelor of computer application Karnataka

GOVT H BENNE PU COLLEGE, NELLIKERI KUMTA – 12th **2023**
Karnataka School Examination and Assessment Board Karnataka

INTERNSHIP

AI Intern - FRIHBI Enterprises Pvt Ltd **Project Link**

- Contributed to backend development of a production POS application using Node.js and Express.js.
- Designed and optimized RESTful API endpoints for billing, employee management, and transaction processing.
- Implemented validation middleware and improved backend error handling mechanisms.
- Debugged and resolved issues in API workflows and database queries.
- Collaborated using Git-based version control and participated in code reviews.

PROJECTS

AI-Powered Chat Platform with Admin Analytics | MERN Stack + Generative AI **Project Link**

- Developed a full-stack AI chat application enabling real-time, context-aware conversations using Groq LLM.
- Built scalable RESTful APIs with Node.js, Express.js, and MongoDB for persistent chat and enquiry management.
- Implemented secure authentication using JWT with HTTP-only cookies and role-based access control for user and admin workflows.
- Designed an admin dashboard to monitor user queries with date-wise and user-wise grouping for conversation tracking.
- Created a responsive React.js interface with Context API for global state management and protected routing.

AI Chrome Extension (AI Summarization & Assistant Tool) **Project Link**

- Developed a **Chrome extension** for summarizing web content and providing AI-powered assistance.
- Integrated **AI APIs** to generate concise summaries and interactive responses.
- Implemented **content and background scripts** for seamless browser interaction.
- Focused on **performance, accuracy, and usability** to enhance user experience.
